Canada Lotto Max: Secrets Unveiled

Introduction

The most attractive thing about the Canadian lotteries is that if you win something, it comes to you totally tax-free. All the proceeds of lotteries in Canada are free of taxes. So if you get to hit the jackpot, you get to keep all of it!

Canadian lotto works wonderfully for all of us, who cannot get enough of it, through the surprises it offers. You get to check your chance of becoming an instant millionaire every day by playing any of its draws on all the seven days of the week. Yes, for Lotto Max lovers, the chances of hitting the jackpot remain the same, be it a weekday or a weekend. This popular lottery game from Canada certainly provides a unique twist, which was never seen before in the lottery world

So if you do not know how to play Canada Lotto Max and win the jackpot, do not fret because you will be learning all about it (which includes the secret tips to win it too!) in the following pages. The write-up is written in a very easy-to-understand format, so just sit back and relax to read this book which would improve your chances of winning Canada Lotto Max by almost 50%. All that you need to do after reading this book is, buy your ticket and place your bet on the number based on the suggestions you find here. Wish you good luck with the rest of the 50%.

My gut feeling tells me that you are going to win it the first time itself!

What is Canada Lotto Max?

Canada Lotto Max is the Canadian lottery with very high jackpots. The best thing about this lottery is that it offers a 'game-within-a-game' approach, which enables us to give it a better shot for winning the million dollars.

When it comes to the lottery system in Canada, we will see that there is a big frenzy for it especially because the rewards are not taxed. Initially Lotto Super 7 was the popular lottery game, but it had its last historical draw on September 19, 2009 while giving way to Canada's king of lotteries – the Lotto Max. Canada Lotto Max started on September 25, 2009. The Interprovincial Lottery Corporation (ILC) presented the Lotto Max game and its rules.

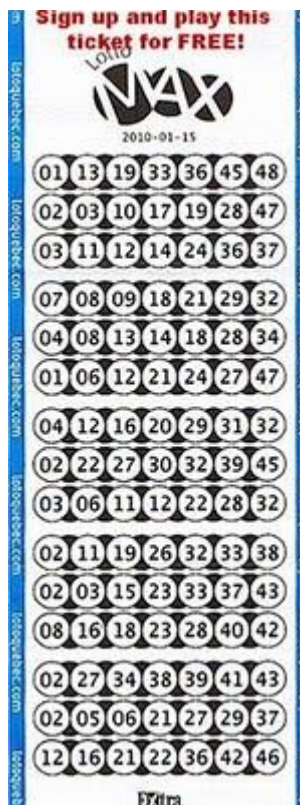

Canada Lotto Max: Secrets Unveiled

Lotto max is now the biggest hit among the lottery lovers who love Lotto Max as much for its positive slogan ("Live your dreams to the max! ") as for its concept. I think this is one lottery where the slogan along with the jackpot amounts, is having a role in driving the ticket sales.

Lotto Max is giving the valuable opportunity to create bigger winners with \$30 million plus jackpots.

However, bigger jackpots though sound very lucrative need not necessarily mean more big winners. Like the Super 7 lottery, which often went months without a jackpot winner, the Lotto Max game is also sure to have longer periods of scarcity without a winner.

In Lotto Max game, you need to bet on just seven numbers and match them exactly with the seven numbers that are played during the final draw. If you successfully match the winning number-combination, you get to takeaway eighty percent of the pool's fund.

What is Lotto Max pool?

Lotto Max pool is in short a dream lottery scheme – one where someone gives you a free lottery ticket and you can enjoy the chance to win the big money without paying a penny for that chance. Lotto Max pool Well is running free by a man named Graham.

All that is required to play Lotto Max pool is that you need to sign up and to reiterate it is free.

Canada Lotto Max: Secrets Unveiled

The owner of the concept, Graham offers a 1/50 share to up to fifty people which definitely includes him too. The 1/50 share is \$25 worth of Lotto Max tickets each week. Once you sign up you get an email of a copy of the ticket. This makes it easy for you to keep a track on the winning by checking the numbers all by yourself. So if the ticket wins the jackpot, you get to win the 1/50 share of it. To top it all you need not pay anything even if you have won.

The reason that Lotto Max pool is only for Lotto Max is because Lotto Max has big jackpots. Since the jackpots start at \$10 million and could increase to \$50 million, even if the pool wins \$10 million, your share of that would come to \$200,000. If you get really lucky and the pool wins \$50 million, your share would be \$1 million!

Even when the Lotto Max pool hits the jackpot, all of the proceeds are completely tax exempted as Canadian lotteries are not taxed. If you are American, you may be needed to pay the taxes as per the tax law in the United States. The Lotto Max pool is open to anyone in the world and there you need neither be the citizen of Canada nor a resident of it.

What comes after Canada Lotto Max: MaxMillions

MaxMillions is the new Canadian a game-within-a-game kind of lottery scheme that offers great odds to win a million dollars. MaxMillions is always played as part of Lotto Max.

Once the jackpot in Lotto Max hits \$50 Million, the jackpot will remain at that level and everything above that will be paid out in the MaxMillions game. If there is \$70 million in jackpot money available, for every million dollars above \$50, a new set of numbers will be drawn for MaxMillions. So, at \$70 million, twenty MaxMillions numbers will be drawn, making the odds of winning a million extremely good because you will now have twenty chances to win.

As compared to the odds of winning the Lotto Max jackpot the odds of winning MaxMillions are much better.

Canada Lotto Max: Secrets Unveiled

Types of players

In lottery gaming, there are two types of players:

- Those who want to play the lotteries without bothering about the odds. They just do it for the thrill of playing it with the hope of a luxurious life that comes after winning the jackpot.
- Those who would not like to try the lottery unless they get to see what they are pitting against, rather the odds that they are running against. They look at fine tuning the process in such a way to increase their chances of winning with each step. The following chapters are for this kind of people.

How much can you win?

The draws for Lotto Max will take place every Friday night. In general, the Lotto Max game characteristically represents jackpots starting at \$10 Million, which can reach up a whopping \$50. This depends on whether anybody has won the jackpots and the subsequent sales figures. If you know the 7/49 type of game, I can say that it is very close to it in terms of the odds of winning on any one set of numbers which are 1-in-85,900,584.

Each ticket will cost \$5. Nevertheless, with each \$5 purchase, you will get three lines per ticket. Since you get three lines per ticket, the odds of winning the jackpot on any one ticket purchased will drop to 1-in-28,633,528. Do not compare that with Super 7, which has odds of winning the jackpot on any one ticket at 1-in-20,963,833, as here you are dealing with three lines per ticket.

Even if Lotto Max is costing more than Super 7 and seems to be much harder to win in terms of the odds that are against, still it is preferred because of MaxMillions. MaxMillions is the supplemental game of Lotto Max. Additionally you always have the bigger jackpots.

The wonderful thing about MaxMillions is that it offers additional jackpots of \$1 million if and only if, the Lotto Max jackpot reaches \$50 million.

Canada Lotto Max: Secrets Unveiled

This game definitely has much better odds as all its press release have promised more millionaires. A promise of more millionaires can be true only with better odds.

Chances Of Winning

As compared to Lotto 649 which is obviously a 6 balls from 49 game that gives the standard chances of 1 in nearly 14 million per ticket, the Lotto Max is a 7 balls from 49 draw game. This implies that you have to match 7 balls in order to win the jackpot. The big difference here though is that you cannot actually buy just 1 ticket but 3 instead. The chances if you pick one would be just 1 in 86 million, but since it is for 3 picks it comes down greatly to 1 in 28.6 million. The cost of getting these 3 tickets costs you \$5.

The big idea behind this game was to create a greater number of big prize winners. The exclusive feature of this game that intends to do that is called MaxMillions. Though the jackpot here starts at \$10 million, if nobody wins that week, then the jackpot automatically rolls over to next week. Till that point it is similar to other lotteries and then starts the difference. If the jackpot rolls over again and again and gets any bigger than \$50 million, then its new and unique feature comes into action.

With that, somebody can still win \$50 million but every \$1 million more than that leads to another jackpot prize. If the jackpot is \$80 million there will be 30 extra \$1 million prizes making our odds at winning it better.

How soon can you get the results?

The draws related to Lotto Max are held once, on every Friday of the week and you can play up to 26 draws in advance. You also get to avail special packs, which allow you to bet on multiple plays from two to eight, plus plays for the extra game in provinces where it is available. The good thing about Packs is that they allow you to bet up to ten consecutive draws in advance.

Max Millions is a unique feature of Canada's national Lotto Max game. It has attracted and excited players across the country who in turn have made the new Lotto Max a smashing success.

Canada Lotto Max: Secrets Unveiled

The special draws come into picture only when the jackpot prize exceeds \$50 million. The number of prizes then are decided by the excess number. For example, when the Lotto Max June 11 draw reached \$70 million, \$20 million was allocated for the special prizes, at \$1 million each for a potential twenty winners. Over the first year since it has been launched, the number of special prizes has gone above 202 winners.

This special draw is held along with the Lotto Max drawings. Each Lotto Max \$5 ticket gives you three chances to win by providing you with three combinations. Out of the three, one can be picked by yourself while the remaining two are randomly selected by the machine. You also have the flexibility of opting for the Quick Pick option in which the machine selects all three combinations.

These number combinations range from 1 to 49. During the actual draw, seven numbers plus a bonus number are drawn. In order to win the Lotto Max jackpot, you must match all seven winning numbers. The minimum prize is a guaranteed \$10 million. If you can match six numbers plus the bonus number, or just match six numbers, you win a prize that is comparable to 4% of the Pools Fund.

The Pools Fund is the total amount allocated for the Prize Fund less the money paid in the form of consolation prizes. 47% of total sales for every draw are allocated to the Prize Fund. Consolation prizes are equal to \$20 for players who match four numbers or who match three numbers plus the bonus number. If you just get to match three numbers, you get a free ticket for the next draw.

Whenever a Max Millions draw is declared, it automatically makes every Lotto Max ticket eligible. A cross symbol appears on the Lotto Max tickets to indicate that the jackpot prize has reached the magic \$50 million mark. A separate draw is held for the special prizes, wherein seven numbers are drawn from 1 to 49. To win the prize, your combination must match all seven numbers and there are no minor or consolation prizes. If the Lotto Max jackpot prize is won but the special prizes are not, the prize money gets added to the minimum prize of \$10 million in the next draw.

As long as the jackpot is not won, the special prizes are carried over to the next draw. If a special draw is declared and you would like to raise your chances of

Canada Lotto Max: Secrets Unveiled

winning, you can play even eight- or nine-number combinations, which while giving you multiple combinations cost more per ticket.

Who are eligible for it?

Lotto Max pool can be played by anyone across the globe. So you need neither be the citizen of Canada nor a resident of it to win the jackpot.

Anybody, as long as they are above 18 years can play the game. That is the reason it is often seen that Americans simply cross the border and buy a ticket.

Playing Lotto Max

While buying your lottery ticket always double check before leaving the store to ensure you have all the tickets you paid for, and that they are correct. The next step is to clearly print or sign your name on your ticket(s). This should be done ASAP after purchase. By printing your name on your ticket, you are making it easy for others to identify it as yours, especially because retailers are unable to check tickets without a name. It is suggested that you always fill your selection slip only in pencil since using ink may damage the Ticket Terminal which makes it difficult to read your Selection Slip.

Avoid writing or marking anything else on the front or back of the ticket, other than printing your name or your group trustee's name on the front of the ticket and filling out the Claim Form on the back. Once you the prize which must be claimed from a Prize Office, any of these additional markings must be investigated and may result in delayed payment.

You can also use the self-serve Ticket Checkers at your Lottery Retailer to check for the genuineness of your tickets. Simply wait for the message, "check your tickets here". Once you get that message, insert the barcode found under the latex in the play area under the red light.

After inserting the barcode, move the barcode slowly through the light, until you hear a small beep. You will get to see the prize information on the screen. Follow this by comparing your numbers to the winning numbers on the website.

Canada Lotto Max: Secrets Unveiled

You would get the winning numbers emailed to you if you can sign up for the MVP service. Also check the winning numbers that are printed and posted at Retail. The best thing to do if you have missed checking on the winning numbers is simply dial the Winning Numbers Lines for the most recent numbers.

Once you have checked your tickets Retail they must be returned to you along with the Validation Slip. Paid tickets are always torn in two and all other tickets are returned in one piece.

So, when you are having your ticket checked by a lottery Retailer, they will first check to see if your name is on the ticket. The clerk will then scan your ticket. If it is the lucky winner, you get to hear the most melodious tune on earth for any lottery ticket buyer: "Cha-ching, Woo-hoo!" With that, the prize amount will be appear on the monitor that faces you.

Even if your ticket is not yet the winner or is worth a prize the Retailer cannot pay, your ticket will be returned to you in one piece along with the Validation Slip. The terminal will temporarily freeze and the monitor will display important prize claim information for all prizes of \$10,000 or more.

Once at the location, you need to register your win with Canada Lottery Corporation (or WCLC). After that you will be given all instructions to collect your prize. WCLC is a non-profit organization that is duly authorized to conduct game-related activities as the agent for the members thereof, the governments of Manitoba, Saskatchewan and Alberta.

For all prize claim instructions the number that you need to call is 1-800-665-3313. The centre is open to take calls between Monday to Friday from 7:30 am MT to 4:30 pm MT.

The Statistics

Statistics show that, of all the lotto games that Yukon Lottery Commission (YLC) provides Lotto Max or Payday are the best depending on which type of lottery player you are.

Canada Lotto Max: Secrets Unveiled

The Recent Winning Table gives you all the recent winning numbers, the Bonus and the Provincial Extras drawn with the numbers. Once eighteen months have passed, only that time period will be shown. The computer cuts off any zeros in front of the extras.

Go through the table to understand the way Lotto Max can be played to win, using the techniques presented in the following section.

The Big Secret: Picking the winning number

The Canadian Lotto Max game is a relatively new lottery game which could be played across Canada and in all the provinces.

Here is a detailed explanation on how to play the Canadian Lotto Max game, the most popular lotto game in Canada which you would not miss noticing as all of the ads at the lottery retailers and the television commercials are talking only about it.

The most important point here is that the price per Lotto Max ticket is \$5. You can either choose your own numbers or get a "Quick Pick" ticket where the terminal randomly chooses the numbers for you. In summary, for each \$5 spent, you get three sets of numbers.

Lotto Max is called a 7/49 lottery in lotto lingo. That means that, to win the jackpot, you must match all seven numbers drawn, out of a possible 49. This boils down to calculating the odds of winning the jackpot to exactly 1-in-85,900,584. However,

Canada Lotto Max: Secrets Unveiled

with each game you play, you get three sets of numbers. This definitely better your odds of winning the jackpot to exactly 1-in-28,633,528.

With respect to the other prizes that available to be won, if you match six numbers, plus the bonus number, you win the second prizes, which is a lucrative few hundred thousand dollars. If you can match five numbers, you get the third prize, which is usually a few thousand dollars. Matching four numbers implies that you are the winner of the fourth prize, which is usually at least \$100. Then, matching three numbers wins you the fifth prize of \$20. Finally, if you match three numbers, plus the bonus number, you win a free ticket.

Odds & Evens: This is the first simple step to raise your chances of winning. When you are selecting your Lotto Max numbers, try to have a comparatively even mix of odd and even numbers. Drawing all odd or all even numbers is unusual (occurs for just 1% of the time). The best mix is to have 3/4 or 4/3, (3 odd and 4 even, or vice-versa) as these two patterns will occur in about 60 % of drawings.

Highs & Lows: Winning numbers are usually spread across the entire number range. So in a 49-number game like Lotto Max Canada, numbers 1 to 25 would be in the low half, and numbers 26 to 49 would be in the high half. All high numbers or all low numbers are rarely drawn, occurring only 1% of the time. The best mix here too is to have 3/4 or 4/3. Winning number groups with these patterns occur in 58 percent of all drawings.

Group strategies: Look at the past winning numbers for Lotto Max or another game you play, and you'll see, more often than not, that one or more of the number groups is not represented. For example, in the combination 5-14-17-32-38-42-45, there are no 20's. So track and study Number Groups to help you decide which group to omit and which group to give extra heavy play.

Skipped strategies: List the number of games skipped i.e., games out since the last win for each of the winning numbers during the last five games. Then mark the number of times each skip occurred. If any skip from 0 to 5 did not occur, play the lotto numbers that are out that many games.

Canada Lotto Max: Secrets Unveiled

Play a balanced game: Once you choose the seven numbers you want to play, add them together. Just make sure that the sum comes to something between 117 and 210. Sums that fall within that range will account for over 70 percent of all lottery jackpots won.

Hot numbers: Numbers that have been losers for four games or less, account for about half of the winning numbers drawn. Losing numbers for ten games or less, account for 80% of all the winning numbers. This proves that hot numbers are more likely to win, but it is also crucial to include at least one long shot in your group of 6.

Cold numbers: It is tough to know when a cold number will end a long losing streak. If you play a number every drawing thinking it is due, you could be chasing it for many months. But when a number has been out for 70 games or so, it might be worth chasing.

Repeat wins: On an average, one lottery number will be a repeat hit from the last drawing for 59% of the time.

Predictions

Here are the predictions for numbers that might be drawn in the upcoming lottery draw which are based on the following assumptions:

1. At least ONE to TWO numbers (and sometimes THREE) will be REPEATING NUMBERS from the most recent draw and
2. These REPEATING NUMBERS have "Best 2 Numbers" relationships that have the greatest chances of being drawn. Bonus Numbers are included.

The predictions become more relevant, as more draws increase, which in turn will increase the frequencies of the "Best 2 Numbers", making:

Most recent draw numbers are:

2 18 19 29 42 47 49 17 January 21, 2011

Conclusion

If you start analysing the earlier results and practice by predicting the future wins, you would see how well you have changed the game of luck into a game of calculative skill. It would be a lost opportunity to get the millions, if you simply theorize with the techniques presented. So go and buy your ticket and see how your life changes after that.
